CAREER CENTER

Langsdorf Hall 208

(714) 278-3121

The Career Center provides career counseling and employment services. The center has designed many programs and services to fit career exploration, planning and employment needs. One of the most popular services is listing of local, part-time jobs for Cal State Fullerton students.

Whether a student is just beginning to think about a major or a career, or is ready to look for a job, the center has counselors and programs that will help define and achieve career goals. The center draws upon both on and off-campus contacts and resources by working closely with employers and faculty to plan career programs. Make the time to get acquainted with and use the center's services and programs.

The center's website www.fullerton.edu/career is the first place to check for up-to-date information about all of our events, activities and services. On our website, you will find the calendar of events, the logon page for Titan Connection, career information pages created by industry specialist staff, links to employer websites, links to job search sites, resume writing tips, interview preparation, job search techniques, a career planning timeline and lists of employers attending campus events.

Opportunities for employment and internships are located on Titan Connection www.fullerton.edu/career. Titan Connection provides lists of student assistant positions on campus, internships, and full- and part-time employment opportunities in the community.

Walk-in advising is the first stop for all students and alumni who visit the Career Center. This is where the career decision-making process and labor market research

can begin. Career counseling is available by appointment to assist students in developing career goals, determining methods of obtaining those goals and implementing a viable job search.

EUREKA, the California Career Information System, is a computerized program that provides clear and individualized approaches to career decision-making. The program will help you examine your skills, explore career options and research program information regarding graduate and professional schools.

The COMPASS community is a two-semester learning community designed for first-time freshmen who have not yet declared a major, or who are unsure about their choice of major. Staff members from the Career Center and the Academic Advisement Center collaborate with the Freshman Programs office to offer COMPASS students a structured experience that can make a strong contribution to their success at Cal State Fullerton. For further information on this learning community, please visit www.fullerton.edu/freshmanprograms.

Each fall the Career Center sponsors a Graduate and Professional School Fair that is attended by representatives from approximately 75 schools. Representatives come to campus to share information about their programs and to recruit Cal State Fullerton students.

Teacher Job Fairs are held once a semester and offer student teachers and other teacher candidates the opportunity to meet and interview with California school district representatives.

The Internship & Job Fair, which is held each fall and spring semester, offers excellent opportunities for students to meet with employers, to apply for positions, and to explore career and professional options. Students can meet with representatives from a variety of business, non-profit and government organizations to ask questions and collect career-related information.

Workshops and seminars are scheduled each semester. The workshops may include the following topics: career planning, resume writing, interview skills, job search techniques, business etiquette, Internet job searches, job search techniques for international students, and other college-to-work topics. A list of dates, times and locations are announced on our website: www.fullerton.edu/career.

The Campus Interview Program brings employers to campus each semester to conduct interviews for current professional job openings. This program provides graduating seniors, graduate students and alumni with opportunities to interview with these employers.

The Career Resource Library contains an extensive collection of job search, occupational and labor market information. A checkout system has been instituted that enables students to borrow materials overnight or over the weekend.

The staff of the Career Center is responsive to the needs of students, alumni and employers. Services are available without cost to currently enrolled undergraduate and graduate students, as well as alumni who are within one year past their graduation date.

Intercollegiate Athletics

CONFERENCE MEMBERSHIPS

National Collegiate Athletic Association (NCAA) Division I

Big West Conference

The rise of academic prestige at California State University, Fullerton has grown alongside the development of one of the nation's impressive young athletics departments. The intercollegiate athletics department provides student athletes the opportunity to compete against the country's finest competition, as well as providing a top-notch education. In an effort to ensure academic development, the university provides counseling systems designed specifically for student athletes. Those services include academic advisement, guidance counseling and daily study halls.

CSUF also has made a commitment to provide facilities that enable fans and athletes alike to enjoy first-rate competition. The long-awaited Sports Complex gives Fullerton fans a much-needed home multipurpose and soccer stadium. The complex provides a 10,000-seat stadium plus upgraded baseball facilities that seat more than 4,000. Also included are two lighted softball diamonds and a lighted track that enable fans to enjoy the university's many night events. Titan Gymnasium already enjoys tremendous popularity among the local community, with more than 4,000 fans able to attend home basketball (men's and women's), wrestling, women's gymnastics and women's volleyball events. An outdoor swimming complex, racquetball courts, weight-training facilities, a high-level gymnastics practice facility, plus facilities for wrestling and fencing make the Fullerton athletics complex a step above.

MEN'S INTERCOLLEGIATE ATHLETICS

Baseball

Few NCAA Division I baseball programs have enjoyed the degree of success that the Titans have had over the past 30 years. During that time, the Titans have won 20 conference championships, 15 regional championships, five super-regional championships, and four national championships. Major League stars Tim Wallach (Montreal Expos), Phil Nevin (multiple teams), Chad Cordero (Washington Nationals) and Mark Kotsay (Oakland A's) have developed at Fullerton. In total, there have been 43 CSUF baseball products competing in the major leagues. Additionally, the Titans boasted two 1996 Olympic team members in Kotsay and Brian Loyd. Year in and year out, the Titans compete against the nation's finest programs and always come out winners.

Basketball

The development of Fullerton basketball has been one of college sports' finest Cinderella stories. Often in contention for the Big West Championship, the program has produced more than half a dozen professional prospects, including current NBA players Bruce Bowen (San Antonio Spurs) and Pape Sow (Toronto Raptors). The Titans have made three NIT appearances to go with a trip to the NCAA Final Eight in 1978. 1984 Olympic Team point guard Leon Wood is one of many fine athletes who have helped develop the Titans into a program that will continue to grow. The university's commitment to basketball ensures success in the years to come.

Cross Country

Men's cross country is making positive strides. The program competes in the very competitive Big West Conference, which is perennially in the spotlight of national attention. The campus and outlying community offer a beautiful setting, which enables the sport to set new standards among local and national universities.

ATHLETIC ACADEMIC SERVICES

Soccer

Soccer is another of Fullerton's many sports where strong coaching has turned the program into a West Coast power. Former CSUF goalkeeper Bob Ammann has taken over the program from his retired mentor, Al Mistri, who developed one of Southern California's finest soccer programs at Damien High School in LaVerne before taking over here. Fullerton shared the conference championship in 1986 and 1992 and placed third in the nation in 1993 and fifth in 1994. The Titans have upset the nation's No. 1 ranked team five times (in 10 attempts).

Fencing

One of the West Coast's few Division I fencing programs gives prospective athletes a chance to train in a traditional, unique sport. The team has enjoyed a great deal of success over the past few years competing against other universities in sabre, foil and epee. The Titans annually place at the NCAA Championships.

Track

Reinstated for the 1989 season, a spring outdoor track program provides a complement to the fall cross country schedule and should attract greater numbers of athletes. A new running track is part of the Sports Complex and has accelerated the growth of a program that was one of the mainstays of Fullerton's athletics department in the early 1970s.

Wrestling

Another sport that few West Coast schools support is prospering in Orange County as CSUF proves that hard work and strong coaching can bring success. Prospective athletes will find an atmosphere that is unparalleled among California universities. Top-notch competition and an All-American environment are two reasons why Fullerton wrestling is so successful. The Titans compete in the rugged Pac-10 Conference and typically send multiple qualifiers to the NCAA championships.

WOMEN'S INTERCOLLEGIATE ATHLETICS

Basketball

The rise in popularity of women's basketball has its foundations tied to the success of Fullerton women's basketball teams. Under former Coach Billie Moore, the Titans won one of the very first national championships given out in the sport. Two of women's basketball's greatest names have risen from Fullerton – 1976 Olympian Nancy Dunkle and 1991 All-American Genia Miller, more recently Genia Miller Rycraw of the Los Angeles Sparks.

Fencing

One of the West Coast's few Division I fencing programs gives prospective athletes a chance to train in a traditional, unique sport. The team has enjoyed a great deal of success over the past few years competing against other universities. The Titans annually place at the NCAA Championships.

Gymnastics

The consistent efforts of the women's gymnastics squad have made them a top 20 national power for virtually all of 30 seasons. No other school in the nation has produced more All-Americans or finished in the top three for more years than the Titans. Potential scholar-athletes receive an opportunity to compete and win year-round, and they have a new practice facility to perfect their routines.

Soccer

This popular and growing sport for women was added in 1993, and former Head Coach Ali Khosroshahin's goals for success matched the men's squad. He won the Big West Conference Championship in his first season (2001), and subsequent trips to the NCAA championships have taken Fullerton as far as the "Sweet Sixteen." In a few short seasons, the program has established a winning overall record. All-American Dolores Browning finished the 1995 season as the nation's No. 3 scorer. Demian Brown, a Titan assistant coach since 2004, takes over as head coach.

Softball

The sport of softball continues to set new standards of excellence on the local and national levels. Always a contender for the NCAA title, the Titans captured their first championship in 1986. Former Coach Judi Garman brought the university countless All-Americans, including former Broderick Award winners Kathy Van Wyk, Susan Lefebvre and Connie Clark. Head Coach Michelle Gromacki expects to continue the winning ways, and she won Big West Conference championships her first four seasons (2000-03). A two-diamond, on-campus facility enables an even greater audience to enjoy one of the nation's most successful teams faces off against other national powers.

Cross Country

The rebirth of a spring track schedule has been a boon to cross-country, as athletes in the distance races can now train on a competitive level year round. Heather Killeen became the Titans' first Division I cross-country All-American in 1994 and then won three events at the 1995 Big West Conference Track Championships. She was one of 10 finalists for 1995 NCAA Woman of the Year.

Tennis

One of the university's many programs on the rise, Fullerton can take advantage of the beautiful climate of Orange County to attract the area's top tennis players. The Titans placed two athletes on the ITA Scholar Athlete All-America Team in 1996, Jennifer Canfield and Kara Kolb. More recently, Ruya Inalpulat earned a third-team berth on the Arthur Ashe Jr. national scholar awards.

Track – Indoor and Outdoor

Steady improvement and a growing coaching staff have combined to fuel optimism that the Titans will become a competitive force in the Big West Conference. A new running facility and the advancements made in distance running by the cross country team, combined with the climate in Southern California, should ensure Fullerton of a solid track program.

Volleyball

Titan volleyball is proving to be a program to watch. Recent success, combined with the obvious attraction of competing against NCAA Championship contenders who are members of the Big West, one of the nation's strongest volleyball conferences, make volleyball an exciting attraction. The acquisition of future athletes plus the development of budding stars should create an environment that will enhance the program's success.

GRAND CENTRAL ART CENTER

125 N. Broadway
Santa Ana
(714) 567-7234

The City of Santa Ana and Cal State Fullerton formed an innovative alliance in 1993 to create the university's Grand Central Art Center, located in downtown Santa Ana in the heart of the Artists Village. The center, which opened in spring 1999, is housed in a block-long, 45,000-square-foot facility. The \$7.5 million renovation of the historic 1924 building was a joint venture designed to bring together art, education and the community.

The Grand Central Art Center provides a setting for graduate art majors to live, learn and work in an artists' community. In addition to studio and living space for students, the art center houses classrooms, galleries

and exhibition spaces, a black-box theater, plus a print-making studio, gallery gift shop, and café and reading room. The center's 83-seat black-box theater presents lectures, film series, panel discussions and productions by the university's award-winning Theatre Department. In addition, the International Artist-in-Residence Program provides the opportunity for professional artists from around the world to live and work at the center while working directly with CSUF graduate students and the community.

HERBARIUM

The Fay A. MacFadden Herbarium is named after Fay A. MacFadden, who sold her extensive collection of plants to the university just prior to her death in 1964. Education Classroom 24
(714) 278-7971

The Reading Center serves four major purposes. First, it provides a controlled, supervised setting for the training of reading specialists and classroom teachers who wish to improve their skills in working with learning disabled and reading disabled students.

Second, the center serves as a community service providing very low cost, high quality instruction in reading that is not available elsewhere in Orange County.

The third purpose of the center is to provide family literacy education to community members whose children have reading disabilities. The center provides parent in-service sessions and a website on literacy information.

Lastly, the Reading Center now coordinates various reading and language arts related services, including dissemination of information to the community, parents, caregivers and various educational agencies; and provides for direct services to schools, colleges, universities and other educational organizations within Orange County. SPEECH, LANGUAGE AND HEARING CLINIC

The Speech, Language and Hearing Clinic is an integral part of the university's curricular programs leading to a B.A. and M.A. Degree in Communicative Disorders. Since 1961, the Department of Speech Communication has provided speech, language and hearing services to the community in conjunction with its training program for professional speech-language pathologists. The graduate program in Communicative Disorders has been accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association since September 1969.

The clinic is composed of a Speech Pathology Unit, an Audiology Unit and several research laboratories with special emphasis given to voice disorders, normal communication alternatives, and disorders of communication in persons who have diverse linguistic or cultural backgrounds. The clinic offers the services of: a resident professional speech-language pathologist who holds the Certificate of Clinical Competence (CCC-SLP); faculty supervisors who are clinically certified and hold doctoral degrees in the field; and student clinicians who have met strictly prescribed standards for admission to clinical practicum. Referrals to the clinic come from a variety of sources including: physicians, teachers, rehabilitative centers, private speech-language pathologists and audiologists, and self-referrals. Services available at the clinic include diagnostic evaluations; therapeutic intervention; audiometric testing; and rehabilitative audiology, includ-

ing hearing aid evaluations, screening tests for students seeking state credentials, and family counseling relative to problems associated with communicative disorders.

THEATRE AND DANCE DEPARTMENT PRODUCTIONS

The Department of Theatre and Dance produces six plays, two musicals and two dance concerts each year on their main stages along with theatre for young audiences, touring plays, MFA project productions, and original one-acts. CSUF students receive special rates to all Theatre and Dance Department productions.

Thirteen out of the last 16 entries in the National Kennedy Center/American College Theatre Festival have been selected for production at the regional festivals, chosen each year from over 75 university entrants. In 1993, for the first time in the history of the Festival, the department was selected to present two original productions, "The Manager" and "All That He Was," at the National Kennedy Center/American College Theatre Festival at the John F Kennedy Center in Washington, D.C. "All That He Was" was also named as the Kennedy Center representative to an international theatre conference in Barcelona, Spain and performed at that venue.
