

EXPECTATIONS FOR CLOSING

You are expected to leave your room in the same condition as when you moved in. This means it should be clean, no holes in the walls, everything in good working condition and furniture in the proper location.

There will be a charge assessed to each occupant of the room for trash removal, excessive cleaning and/or any missing or damaged items.

Discuss cleaning tasks with your roommate(s), especially if you are checking out at different times. Refer to the table below.

This form is meant to be a tool in creating a successful move out experience for residents through shared accountability for cleaning tasks. In the event that a common space in your unit is not properly cleaned or contains abandoned property or trash, all residents in the space will be billed accordingly. The items on this form will not be utilized for billing purposes.
